
solr-cmd-utils

Release 1.0.0

Aug 01, 2023

Contents

1	Pipelines	1
2	TODO	3

CHAPTER 1

Pipelines

The following command executes the pipeline `csv-writer-pipeline.yaml` and set the variable `filename`. The file will be written to the location `test.csv`:

```
solr-pipeline -p examples/unittest/csv-writer-pipeline.yaml -Vfilename=test.csv
```

CHAPTER 2

TODO
